

## Description:

The TXJ1 is a FSK TX high power module, Working at 433.92MHz

## Application

Car Alarm, Security System, Remote Control

TXJ1

434MHZ

Hybrid

Transmitter

## Specification

| Parameter            | Value   | Units |
|----------------------|---------|-------|
| TX mode              | FSK     |       |
| Frequency            | 433.92  | MHZ   |
| Working voltage      | 5       | V     |
| TX Power             | >+15    | dBm   |
| Freq.intermodulation | 4.5     | KHz   |
| TX Power consumption | 75      | mA    |
| Data rate            | 2400    | bps   |
| Working temp. range  | -20~+70 | °C    |
|                      |         |       |
|                      |         |       |
|                      |         |       |

## Pin assignment

1. ANT
2. GND
3. GND
4. GND
5. TX DATA
6. +5V
